

GenFest I | Fun and Fabulous 5-95

Let's Celebrate Thriving in Community Together!

Capitol Hill Village is hosting its first GenFest on January 20 – an intergenerational festival to celebrate community with young and old. Other activities include:

- **Learn** to create a delicate snowflake out of paper or to paint a design on a mug.
- **Create your “Lifeline”** and contribute to Capitol Hill’s past and future! Using stickers, pictures, drawing create composite timeline that show key events in your life? First bike? First soccer goal? First car? First love?
- **Storytelling and interviews?** Take a few minutes to discover how to tell a story or draw one out of a friend. Share your greatest moments with the community.
- **Play:** Be challenged by puzzles and games provided by Labyrinth. Get your picture taken at a goofy photo booth. Create your “life line” and contribute to Capitol Hill’s past and future!
- **Explore:** See an art exhibit and meet Maury Elementary School’s fifth-grade artists who have created portraits of Capitol Hill Village member models. Discover how to tell a story or draw one out of a friend.
- **Learn:** Have a try at playing the ukulele and join a sing-along. Learn to create a delicate snowflake out of paper or to paint a design on a mug.
